

Leadership Studies Minor (LSM) Registration Guidelines

(Effective Fall 2016)

Declare the Leadership Studies Minor by the End of the Term

If selected, students are considered eligible for the minor, though not considered admitted into the minor (an LSMer) until they have officially declared. Also, students cannot register for the Core LSM courses (ELPS 201, ELPS 450/1 or a general section of ELPS 350) until they have declared the minor. Students should meet with their academic advisor and the College of Education, Health, and Human Sciences advisors after being selected to ensure feasibility of completion. (Email to come from CEHHS Advising upon selection for eligibility.) Students are expected to declare the minor before the last day of finals of the term they become eligible (i.e. if selected in the Fall, students must declare by the end of the finals period in December of that term).

Registration Sequence for Core Courses

Students entering LSM eligibility with any ELPS 350 Positional Leadership credit hours will be registered for the one credit hour of ELPS 350 Self-Authored Personally and Socially Responsible (PSR) Leadership content in the second session of the term they became eligible. If at all possible students should NOT take the PSR one hour of ELPS 350 credit until they have completed a 2-hour Positional Leadership ELPS 350 section. All students who declare the minor should register themselves (YOU REGISTER) for a section of ELPS 201 the semester after becoming eligible, unless enrolled in a Positional Leadership ELPS 350 section for the first time.

Statements of Practice

Student's eligibility for the minor will be rescinded after one year if they have not declared the minor or completed ELPS 201.

Requests for flexibility in all of the above will be granted if made in writing and a reasonable (i.e., possible and meeting the academic requirements) pathway to completing the LSM requirements is proposed.
